

## Summer Spotters Guide for Peppenbury

See if you can spot these beautiful creatures

### Green Woodpecker

Its so green you might think it's a parrot as it flies past

### Greater Spotted Woodpecker

You might have to use your ears instead of your eyes to find this one. Listen for a drumming sound as they bang trees with their beaks to tell other woodpeckers where they are

### Roe Deer

These Deer are very shy. If you want to see them you have to walk really quietly.

Imagine you are a stone age man hunting for food and see how close you can get. Instead of eating them take a picture.
